SUMIMARK IV 300 DPI Printer Utility Centering

If you are experiencing off centering printing, below are steps to realign it using the Printer Utility.

Please use the link below to download Printer Utility 4.30:

<http://www.amtdatasouth.com/support-1/downloads/software/>

Here is a pic showing the Printer Utility opened and the main areas you will be using:

Once you have this screen, please follow the steps to change the Horizontal Offset:

-On the Printer Setting tab, change the model to TIA-320E and Interface to USB

-Under Media, check the box next to Horizontal Offset (Horizontal Offset is the correct setting)

-Change the Shift Value in increments of 1 (+ or -).

To change it back to the original setting change value to 0 -Click Send

It may take some trial and error to get it right where you want it.
